BOX LABEL INSTRUCTIONS

- . Be sure to attach an address label to each box or package.
- . Make as many copies of this label as you require. We recommend placing a second copy inside any package too.
- . Write your details in the sections indicated on the label.
- . Using packing tape, securely tape the label to your boxes along all four edges. Some customers chose to apply tape around the entire circumference (vertically and horizontally) of the box to ensure labels are secure.

NOTE: Do NOT cover any address information with coloured or opaque tape. All details must be clear and legible. All consignments are subject to security and customs inspection. Please ensure all boxes are sealed.
